Handgards®

WHO WE ARE WE ARE MORE THAN A GLOVE COMPANY

For over 60 years Handgards has been manufacturing and delivering high-quality food grade disposable products to the foodservice industry. We managed to position ourselves as the leader in food safety innovations by providing products that address your food safety needs. Our leadership role in the industry has emerged by supplying the broadest menu of disposable products and from our manufacturing capabilities and flexible processes that are adjusted according to our customers' requirements. From disposable gloves and pan liners to food storage bags and foodservice expendables and apparel, we cover any back-of-the-house and front-of-the-house needs.

Our unparalleled knowledge has made us a valued resource that our customers turn to for food safety products and guidance. Our mission is to deliver the right product, for the right task, at the right price and to give the end-user the extra protection needed. We work closely with restaurant operators and their leadership to continue learning firsthand what our customers need.

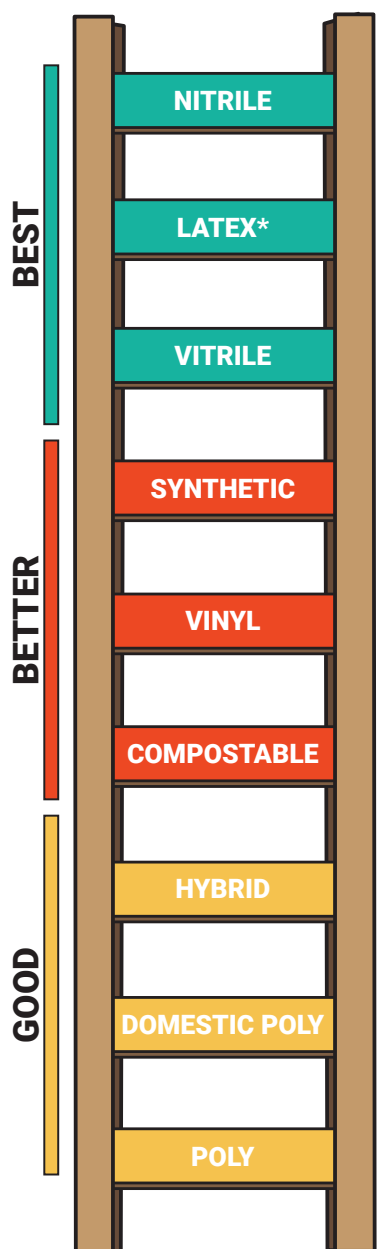

The focus of our business is to strengthen our service and manufacturing solutions by providing knowledgeable and useful resources and products to our customers. Our supply chain supports our customers by implementing efficient strategies to speed up our manufacturing and delivery operations. We have distributions centers in West Texas and Ohio that allow a quick turnaround time for products to be delivered on-time and complete. We are committed to the quality of our relationships with our customers, suppliers, and community; therefore, we take things a step further to exceed – rather than just meet expectations.

GLOVE LADDER

The Handgards Glove Ladder is a model to our key glove categories, divided into three sections: good, better, and best. We introduce our disposable gloves in the best way to help customers match their needs with our offerings. Our disposable gloves are classified by the materials they are made of and the tasks they are designed for.

PRODUCT LINE FEATURES

NITRILE GLOVES

- A premium, puncture-resistant (not puncture-proof) alternative to latex
- For high-skill tasks, including breaking down raw meats and deboning fish
- Available in powder-free
- Available in black, blue, white, purple and translucent colors

LATEX GLOVES*

- High form-fitting design with excellent flexibility
- Provides improved dexterity and superior touch sensitivity
- Recommended for precise work including slicing and chopping
- Available in ivory color
- Available in lightly powdered or powder-free

VITRILE GLOVES

- Made of a hybrid nitrile and vinyl blend
- Flexible, lightweight form-fitting design for improved dexterity
- High-quality and economical Latex alternative
- Available in powder-free
- Available in dark blue, light blue and black color for a unique professional look

SYNTHETIC GLOVES

- Provides a snug and comfortable fit with increased touch sensitivity
- Ideal for tough tasks including processing of meats, fish, and poultry
- Available in lightly powdered and powder-free
- UltraTouch sensitivity and soothing aloe options available
- Available in white, blue/purple and green colors

VINYL GLOVES

- Form-fitting design that increases flexibility for comfort
- Offer improved dexterity and touch sensitivity
- Ideal for handling and prepping hot menu items
- Available in lightly powdered and powder-free
- Available in clear, blue, and black color for a unique professional look

COMPOSTABLE GLOVES

- Design with a loose-fitting form for easy-on and easy-off use
- Made of a compostable material that reduces landfill waste when composted properly
- Made in the U.S.A. to reduce overall transportation emissions
- Available in powder-free
- Durable material and translucent green color

HYBRID GLOVES

- Grip Gards® gloves offer a second-skin fit when users size down one size
- Diamond pattern texture for improved grip and dexterity
- Ideal alternative to vinyl with increased elasticity
- Available in powder-free
- Available in clear and blue colors

DOMESTIC POLY GLOVES

- Loose-fitting design for easy-on, easy-off use
- Ideal when quick, frequent glove changes are required
- Recommended for light tasks such as salad and sandwich prep
- Available in powder-free and in clear and blue color
- Made in the U.S.A.

POLY GLOVES

- Your most economical alternative
- Reliable performance for short-term use applications when frequent glove changes are required
- Not recommended to use around heat or hot surfaces
- Available in powder-free

* These products contain natural rubber latex which may cause allergic reactions in some individuals. Users who are sensitive to latex should avoid contact and consider alternatives. If an allergic reaction occurs, discontinue use, avoid further contact with this product and consult a physician

MADE IN THE U.S.A. PRODUCTS

Our “Made in the U.S.A.” product offering represents our manufacturing capabilities and supports American consumers that prefer domestically made products. It also creates a less environmental impact by complying with regulations that may not exist in other countries, reinforces the economy, and makes our communities stronger.

Our manufacturing and distribution solutions guarantee product value, exceptional service, and efficient distribution channels that deliver your products on-time and complete. Our manufacturing facility is in El Paso, Texas where each pair of Poly gloves, Compostable gloves, Pan Liners, and other food grade products are manufactured and distributed.

FIRST IN FOODSERVICE INNOVATIONS

At Handgards, we fully comply with FTC regulations when claiming and labeling our domestic products as “Made in the U.S.A.” Each product is carefully detailed, manufactured, and tested before being distributed. We work closely with American suppliers that provide corrugated packaging for our domestic product line that is made of at least two-thirds of sustainable sources that comply with the Sustainable Forestry Initiative Certification (SFI). By partnering with other businesses, we are contributing to a stronger economy and reducing our product transport emissions.

Our American made products guarantee quality and ensure customer satisfaction.

Coates, Rosemary. “Americans Say They Prefer Products Made In USA and Will Pay More For Them.” Recently Filed RSS, 29 Sept. 2020, www.scmr.com/article/americans_say_they_prefer_products_made_in_usa_and_will_pay_more_for_them.

Pan Liners

Handgards pan liners can save time and money for your establishment while also improving the quality of your food. Our pan liners can eliminate labor intensive jobs such as scrubbing and scouring baked-on foods. They also make your food safer since the food never touches the pan. This prevents any chance of surface contamination.

Ovenable Pan Liners

Ovenable Pan Liners and Ovenable Roasting Bags are made of nylon material that can withstand temperatures of up to 400 °F (204°C). These pan liners are used to cook, serve, and store food.

Steam Pan Liners

Steam Pan Liners are made of high-density polyethylene material that can withstand temperatures of up to 220°F (104°C). They are used to hold, transport, and serve food from steam pans.

For optimal results it is recommended that you follow your own procedure or process when testing food items.

OVENABLE PAN LINERS AND OVENABLE ROASTING BAGS

- Cook, bake, and roast up to 400°F (204°C).
- Safe to go directly from freezer to microwave, steam table, slow cooker, or oven.
- Non-closeable Ovenable Pan Liners are perfect for baking, warming, transporting, and serving.
- Ovenable Roasting Bags retain food moisture for better quality.
- For better results add ¼” of water to pan before cooking.

STEAM PAN LINERS

- Perfect for steam table warmers, food warmers, slow cookers and soup pots.
- Maximum temperature of 220°F (104°C).
- Go direct from freezer to microwave.
- Available to fit all standard steam pan sizes.
- For better results add ¼” of water to pan before cooking.
- **THESE PAN LINERS ARE NOT DESIGNED FOR USE IN OVENS**

Panhandlers® Cook Chill Bags

Handgards® Panhandlers® Cook Chill Bags provide top quality food preservation with ease. Ideal for restaurant operators, commercial and non-commercial kitchens, commissary kitchens, institutional cafeterias, and ghost kitchens, where preparing food in bulk quantities and cooking large batches of meals is crucial for the success of your establishment. Our Cook Chill Bags facilitate daily kitchen operations by creating a centralized control of inventories, increasing food yield, improving productivity, and avoids accidental breakage eliminating food waste that leads to higher costs.

Low-Density Polyethylene Aprons and Bibs

Neatgards® and Valugards® aprons are recommended for all prep and serving duties. They protect uniforms and clothing, combined with proper hygiene practices and frequent changes, they can help reduce the possibility of cross contamination and the potential transfer of harmful bacteria or viruses. Neatgards® bibs also help protect clothing and help prevent contamination.
